- 1.4 million people required humanitarian assistance.
- **806,000** people were severely food insecure.

Assisted people

Round 1: (started on the 7 Oct 17)

- 853,317 people in Priority 1 areas (105% of target);
- 71,562 people in Priority 2 areas

Round 2: (started on the 24 Nov 17)

- 354,430 people in Priority 1 areas (61% of target);
- 149,600 people in Priority 2 areas

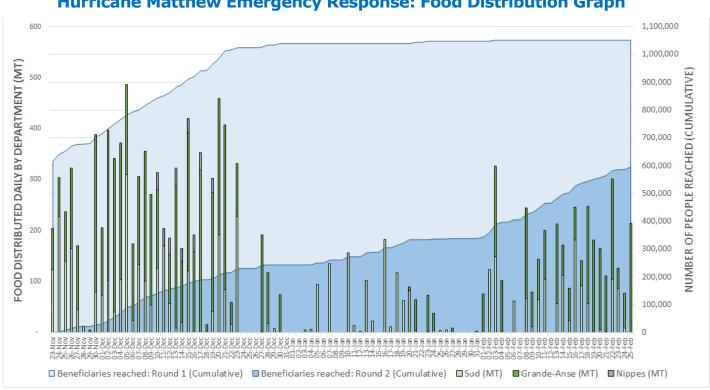

Situation Update

- This Situation Report, produced by WFP has covered the five-month period from 04 October 2016 to the end of February 2017 and is the last situation report on the Hurricane Matthew **Emergency Response.**
- WFP is now phasing out its emergency response operations and **planning the transition** recovery programming. The main component of the recovery projects will consist of Asset Creation Activities, in addition to the ongoing malnutrition prevention projects.

WFP Response

- All General Food Distributions will end by mid-March 2017.
- Since the beginning of the emergency operation on 7 October 2016 in Sud and Grande-Anse:
 - WFP has reached 924,879 people with general food distributions with a total of 18,911 MT of food.
 - WFP provided **specialized nutritious food** to a total of **57,000 children under five** and 18,000 pregnant and nursing women.

Hurricane Matthew Emergency Response: Food Distribution Graph

© Cash-based Transfers

- In total, since the beginning of the operation more than 75,000 people have each received a 4,080 HTG (approximately US\$60) cash-based transfer in 6 of the most affected communes by the hurricane Matthew (Port Salut, Camp Perrin, Corail, Pestel, Trou-bonbon, Anse d'Ainault).
- The last second Cash-based transfers for Grande-Anse department is planned on 15 March 2017.
- WFP hotline, operational since 20 January, allows WFP and its partners to receive grievances and feedback from the communities where projects are implemented in Grande-Anse and Nippes. So far, the hotline has received 560 calls of which 70 percent were addressed by WFP.

ICT Working Group

- The Emergency Telecommunications working group projects have ended on 28 February 2017.
 It was committed to helping communities access vital humanitarian information.
- The refurbishment of one radio station in Nippes is now completed, with the 3 remaining station in Tiburon, Anse d'Ainault and DameMarie to be completed by 10 March 2017.
- The telecommunications working group is now following up with all the activities and will end by mid –March 2017.

Logistics Working Group

- The Logistics Working Group's operation closed on 28 February 2017. As part of the closing down activities, the Logistics Working Group is continuing to support Governments and stakeholders to address gaps and identify organisations and local actors best placed to address these gaps.
- Since October 2016 the Logistics Working Group has processed 317 Service Request Form (SRFs), on behalf of 48 organisations. In total 6,396 MT has been handled in 3 different warehouses and 7,589 MT transported to 77 main destinations.

Timeline: Hurricane Matthew

Response

Hurricane Matthew makes landfall.

First WFP food distribution.

Results of EFSA show Grande-Anse and Sud are most affected areas and 806,000 are in urgent need of food.

WFP jointly with FAO starts providing seed protection food ration.

WFP provides first cash transfers to 16,960 beneficiaries.

The volatile security situation leads to the temporary suspension of WFP operations.

WFP operations have resumed fully in Sud and partially in Grande-Anse following a security assessment.

Results of EFSA conducted in December show food insecurity halved in areas affected by Hurricane Matthew and where WFP intervened.

Partnership between MSF Belgium and WFP to support the transport of 344mt of NFIs and construction material to inaccessible villages.

Tripartite debriefing between MAST, CARE and WFP to identify actions to improve coordination.

Hurricane Matthew Response's Lessons learnt workshop for CBT.

Operational Information Management and Reports Officer:

Hurricane Matthew Relief Operations are coming to an ending and the focus is shifting to early recovery projects.
